Donate Your Rubber Drive Money To Dugout or USO

The big nation-wide rubber drive which ends June 30 affords Palm Springs residents a fine opportunity to contribute to local service men's charities, namely, the American Legion Dugout and the USO.

Ernest Grill, chairman of the Service Men's Dugout, has made arrangements with two local gasoline stations whereby villagers may turn their rubber in and request that the cent a pound they have coming be turned over to either the Dugout or the USO. These two gas stations are Earl Hough's Associated Station, corner Palm Canyon Drive and Amado Road; and Bill Prendergast's General Petroleum Station, 496 N. Palm Canyon Drive.

If the American public can salvage enough rubber by June 30, motorists may avert gasoline rationing and get recapped tires. Almost every attic, basement, barn, and garage is an untapped reservoir of idle rubber. Today's most urgent problem is getting this rubber into service station depots. President Roosevelt has authorized every service station in the U. S. to serve as a collection center in this all important two-week emergency drive.

Nothing Too Small

Everything counts—Fido's rubber bone, the youngster's outgrown playthings, Dad's old fishing boots, Grandma's leaky hot-water bottles and hundreds of other discarded or unnecessary rubber articles are needed to help win this battle of rubber. It's everybody's job—start today! Here's a suggested list of things to look for—and take to any service station:

Tires and tubes, crepe rubber soles, boots and overshoes, hot-water bottles, tennis shoes, rubber belting, rubber gloves, rubber sheeting, pads and matting, rubber toys.

Raincoats and capes, rubber heels, rubber bathing suits, bathing caps and shoes, jar rings, plumber's suction cups, sample tire sections, rubber ash trays, rubber balls.

Joe Omlin, Jr. Joins Coast Guard; Now in Washington

Another local youth has joined the list of some 140 Palm Springs men in the nation's armed forces. He is Joe Omlin, Jr., who reported June 11 at Port Townsend, Washington, for duty with the U. S. Coast Guard.

Son of Police Officer and Mrs. Joe Omlin, residents of the village for many years, Joe graduated from both local schools. He was very active in Boy Scout work and had been employed at Lykken's store.

Joe has been trying to join the Coast Guard for a long time. He enlisted some time ago, but wasn't called until June 4th, when he was told to report at Port Townsend on the 11th of this month. He writes to his parents the country is very beautiful in the vicinity of the Coast Guard station and that he is enjoying the service very much.

GO TO BANNING TO SPEND SUMMER

Mrs. Annie Plymire and sister, Miss Jennie Lawson, are in Banning for the summer. They are occupying their cottage at 650 Hargrave street.

NEW \$10,500 HEALTH CENTER COMPLETED THIS WEEK; WILL OPEN EARLY IN FALL

Culminating a movement started more than a year ago by the Woman's Club for a free clinic and health center here, Contractor E. F. Martell this week put the finishing touches on the new \$10,500 Palm Springs Health Center, located on the Indian reservation at the east end of Amado Road. It will be opened to the public early next fall.

17-ROOM BUILDING

The attractive stucco structure comprises some 17 rooms, including a project room, store room, men's and women's rest rooms, venereal diseases, treatment room, laboratory, bathroom, doctors' office, nurses' office, examination room, and a ramp for transporting patients into the health center.

Establishment and operation of the health center was made possible by the state, county and municipal government working

Martins Write From Colorado

Of much interest to townspeople is the letter received this week from Mr. and Mrs. Walter J. Martin, who are at their summer place in Glenwood Springs, Colorado. They are having a grand time putting in flowers and getting their cottages in readiness for a busy summer season; in fact, they have been unusually busy for June.

Visits Son

Mrs. Martin further writes that she traveled to Ft. Riley, Kansas, for a farewell visit with her son, Major Frederick Miller Sperry. He has been given an important assignment as a Staff Officer at an undisclosed destination overseas.

Major Sperry was recently graduated with high honors from the Command and Staff College at Fort Leavenworth, where he was a member of a group of officers selected from all parts of the United States for special training in staff work. Prior to Major Sperry's recent assignment, he was Intelligence and Public Relations Officer at Fort Riley for a year and a half.

City Must Raise \$69,000 Next Year By Taxation

Introduced at a meeting of the city council Wednesday night was an ordinance fixing \$69,000 as the amount of money necessary to be raised by taxation upon the taxable property within the city of Palm Springs as a revenue to carry on the various departments of the city for the fiscal year beginning July 1, 1942. This is exactly the same amount set last year.

The total sum of \$69,000 to be raised by the city by property taxation was broken down as follows:

- (1) For the maintenance and support of and the purchase of property for the public library (the maintenance of said library not being otherwise provided for), the sum of \$2,150.
- (2) For the carrying on of the various departments of the city, other than the public library, the sum of \$66,850.

Mayor Shannon informed The Desert Sun yesterday that a city tax rate of one dollar per \$100 of assessed valuation will raise the necessary \$69,000 for the city. This is the same as the city tax rate for Palm Springs last year.

Nationally Known Artist Returns

Miss Louise Shaw, nationally known artist, whose murals, bas-reliefs and statues are in many libraries, schools and museums from coast to coast, and whose famous statues and murals were a noted feature at the San Francisco Exposition and Chicago World's Fair, is again in Palm Springs. "Just home for a rest," says Miss Shaw, who is accompanied by her mother, the internationally known chalk-talk artist and landscape painter.

Carol Davis of the Automobile Club of Southern California shows two signs that will be used to mark boundaries of coastal dim-out restricted light zones. One on left warns motorists they are entering restricted zone, and sign on right is an "exit" from dim-out area. Auto Club sign-posting crews have installed these warning markers along California coastline highways from San Luis Obispo County to the Mexican Border.

Proposed Army Sewage Plant Near Palm Springs Schools Perturbs City Fathers

The City of Palm Springs was advised this week that the U. S. Engineer's Office intends to develop a new and separate sewage disposal plant out on Section 24, in the immediate vicinity of the high and junior high schools, for the purposes of the new Army General Hospital. Local reaction to this move was swift and decidedly against such a disposal plant in the proposed location.

PLAN NEW PIPE LINE

The U. S. Engineer's plans for a separate sewer system include, besides the disposal plant, construction of a new sewer pipe line to the intended disposal plant from the hospital along a different route from that followed by the existing sewer lines of the Palm Springs Sanitary District.

Tuesday, city councilmen and the planning commission conferred with U. S. engineers at a meeting here in town during which the pro and con of the proposed new sewer system were discussed. As an outgrowth of this meeting the planning commission considered the matter and reported to the city council its recommendation that the U. S. Engineer's office be urged to refrain from placing any sewage disposal plant on said Section 24.

Mile Closer to Town

When the matter was brought up for discussion at the council meeting Wednesday night, the following points were brought out:

- (1) Construction of the new sewer system would result in locating the new disposal plant one mile closer to the center and populated areas of the city than the present disposal plant and would place the plant in the immediate vicinity of Palm Springs' two fine new schools on East Ramon Road.
- (2) In the planning and design of the existing sanitary system of Palm Springs, great care was taken to obtain a permanent site well located from an engineering standpoint and yet reasonably distant from the center of town and the residential districts.
- (3) Placing the contemplated new army disposal plant in the area of the existing plant would make possible connections with developments on the Palm Springs Airport, where the Army Ferrying Command camp is located, which would not be possible were the plant located on Section 24.

In consideration of the above points, the city council, by resolution passed Wednesday night, took the following stand on the subject:

Pass Negative Resolution
"Now, Therefore, Be It Resolved,"

18 TO 20½ YEAR OLDS MUST REGISTER JUNE 30

Registration of men 18 to 20½ years takes place Tuesday, June 30. All men born between January 1, 1922, and June 30, 1924, inclusive, are required to register on that day.

Death Takes Reuben Shettler

Long a resident of California and of Palm Springs for a number of winters, Reuben Shettler passed away at the family home in Los Angeles the early part of the week. Shettler, a native of New York, was a pioneer in the automobile industry in Michigan.

At the time of his death he was 89 years of age. He leaves his widow, Mrs. Sarah B. Shettler. Funeral services were conducted at their home Tuesday and cremation at Forest Lawn Memorial Park followed the services.

Owen Coffman Graduated From Stanford

Four Palm Springs young people last week put the finishing touches on another school term at Stanford University, with one, Owen Coffman, receiving his diploma. The other three, Natalie Towle, Dick Outcault and Don Pendery, were freshmen this year.

Owen's immediate future is all lined out. He has enlisted in the Army Air Corps and has received orders to report for duty at a field in the East. He is the son of Mr. and Mrs. Earl Coffman of The Desert Inn.

R. F. Outcault and young son, John, motored north last week to get Dick and Don Pendery and brought them back to Palm Springs. They arrived here last Thursday for a few days' vacation before returning for summer school. Dick and Don took the train back to Stanford on Wednesday.

Dick, who is studying law, has joined the Reserve Officers Training Corps at Stanford, and says he enjoys it very much. He has been pledged by Phi Gamma Delta and will live in that fraternity's house this summer.

Don Pendery is studying engineering, and received the award for being the university's outstanding freshman engineer this year. He is the son of Mr. and Mrs. Horace Pendery.

Miss Towle is the daughter of Mrs. Natalie B. Towle of Palm Springs.

Colonial House Is Officers' Club

By RUTH SUMMERS

As her contribution in this crisis when we are all wondering what we can do, Mrs. Thelma Wertheimer today has given Colonial House to be used as an officers' club. The need has been great, and Lieutenant Paul Herbert is gratified to act as manager. The club regulations will follow the usual procedure, the officers paying monthly dues and they and their families in turn enjoying all club privileges. Resident rooms are also available.

A limited number of resident officers of the Desert Training Center has been invited by Lieut. Herbert to participate in the activities of the club. Lieut. Herbert regrets that the size of Colonial House does not permit of unlimited membership.

Mrs. Ben Martin, wife of Lieut. Martin of Desert Training Center, will act as hostess.

Council to Hold Public Hearings on Important Matters

Sometime during the next couple of months, the Palm Springs City Council will conduct public hearings on several very important matters recently considered by the planning commission: Namely, proposed amendments to Ordinance 75, the Land Use Ordinance; several requests for "spot zoning" and the matter of the army's request for closing of several streets in the vicinity of the Army General Hospital.

PLANNERS SUBMIT FINDINGS

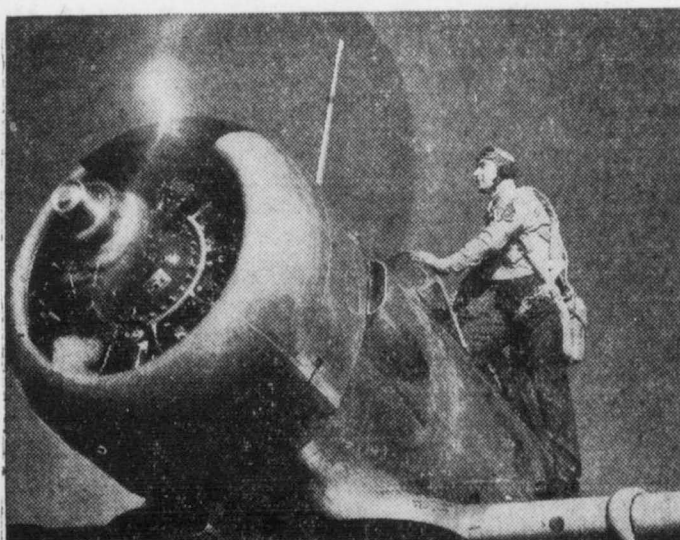

The planning commission has completed its hearings on all these matters and submitted its report and recommendations to the city council Wednesday night. The recommendations of the planning commission were as follows:

That several changes be made to clarify the wording of the zoning or land use ordinance, making the wording more specific. It would be necessary to pass an ordinance including these various amendments.

The planners recommended the petition of John W. Williams and Mrs. Austin McManus for re-

Marines Patrol Coastline

A technical sergeant of a Marine Corps flying squadron climbs aboard his plane before taking off on a patrol flight along our coastline. Marine Corps aviation squadrons operate from Navy aircraft carriers with Navy squadrons as well as from land bases, such as the one at Wake Island.

100 Men Push Work All Day and Night On Hospital Units

75 Per Cent Local Labor Used

Pushing work on the "rush job" with a huge crew of 100 men, the J. & B. Construction Co. of Los Angeles this week went into high gear on the task of converting two of the larger buildings at former El Mirador Hotel into the first big units of the new Army General Hospital. This definitely brands as false the tale spread last week to the effect the hospital would not be built.

RUSH JOB

Ervin Coble and Donald Hall Wed Wednesday Evening

At a simple but lovely ceremony at the Community church, Wednesday evening, Miss Ervin Coble became the bride of Donald Hall, with Dr. John Robertson Macartney officiating.

The bride was given away by her brother, Warren Coble. Bridesmaid was Miss Virginia Williams and Ferdinand Coble was best man. The wedding march was played by Mrs. Leroy Hooker, and Mrs. Walter Illick sang a number of appropriate songs.

A large crowd gathered at the church for the 8:30 ceremony and wished the young couple much luck as they left for a brief honeymoon, after which they will establish their home in Palm Springs.

Free Child Clinic At Local Church Next Week

The final county-sponsored free child clinic of the season will be held from 9:00 a. m. to 1:00 p. m. next Tuesday at the Community Church, it was announced this week by Madge Holderman, city health nurse.

This clinic, in the nature of a child health conference with village mothers, will be conducted by Dr. Mildred Van Cleave, county physician.

Strictly for well babies below school age, the clinic will afford mothers an opportunity to have their small children examined by a competent medic. She will tell the mothers if their children need dental work, their tonsils and adenoids removed, or if they require any other medical attention. Also, anyone wanting their child vaccinated is urged to bring their offspring to the clinic next Tuesday, as this will be the last here until next September.

Contributes To Stanford

Mrs. Raymond V. Knowles of Palm Springs was among the 3000 donors who contributed to Stanford University during the past year.

Gifts to Stanford University this year totaled \$1,550,000 Chancellor Ray Lyman Wilbur announced at the 51st annual commencement held on the Stanford campus Sunday afternoon, June 14.

VILLAGERS ASKED TO CONTRIBUTE TO P. S. "WAR CHEST" FUND FOR ALL LOCAL SERVICE MEN'S ACTIVITIES

By JOHN CHAFFEY

On the letterhead of the War Recreation Council, letters are being mailed today to all villagers inviting their cooperation in the "War Chest" plan of financing recreational activities for service men. The letter explains that the War Recreation Council is operating a combined fund for USO, the American Legion Dugout and service men's athletic activities at the Field Club, and is signed by Melba Bennett, treasurer.

ALL SHOULD DONATE

Stating that every American wants to shoulder his or her share of the burden of war and do his bit toward contributing to the enjoyment of the service man's few leisure moments, the letter points out what Palm Springs is doing for the boys who are off duty. It says in part: "The American Legion has provided 'The Dugout', a hospitality hut in the Plaza, in the heart of town. Here fruit juices and information are freely dispensed

and schedules of available swimming pools are maintained. Games are played, and the boys make it a headquarters.

"The local USO committee has opened the Schenck property with its swimming pool, showers, playground, etc., as a hospitality center, which last Sunday was patronized by more than 300 service men. The Palm Springs Field Club plays host to more than 100 service men a night—

Outstanding Group of Contractors Responsible for Fine Construction Of New Health Center Building

*E. F. Martell Selects Only
Most Reliable Sub-Contractors
To Erect All-Electric Building*

An attractive, ultra-modern building inside and out, the people of Palm Springs can well be proud of the new city health center, completed this week at the east end of Amado Road. Largely responsible for the sleek, sturdy appearance of the structure are the large group of well-known sub-contractors and material dealers who assisted E. F. Martell, local contractor, in bringing the project to completion.

HERE THEY ARE

Martell, the general contractor the city selected to build the new health center, has been one of this community's finer contractors for many years.

Masonry and all cement work were done by those two conscientious workmen, Gray & Taylor, local cement contractors.

All lumber was furnished by the Palm Springs branch of the Dill Lumber Co.

One of the visible features of the new health center is the pleasing paint combinations. Responsible for this portion of the job is one of Palm Springs' finest painting contractors, Clinton C. Bauer.

Modern in every detail, the health center is an all-electric building. The fluorescent lighting, electric water heating system and electric heating facilities were installed by C. V. "Shorty" Knupp of the Desert Electric Company. All equipment in the laboratory is also electrically operated.

When it came to selecting the company to lay the linoleum, the choice was easy. The Smith-Grubbs concern of Riverside, which has done most of the linoleum work in Palm Springs for many years, naturally was called in to handle this very important detail of the health center.

MORE HELP

All plumbing fixtures and equipment, of which there is a lot in the new building, were purchased from and installed by the Palm Springs Pipe & Supply Co.

Dick Mabrey, that genial artist with the trowel, was chosen as the plastering contractor. Dick has plastered some of the best buildings in Palm Springs during his many years in business here.

Those all-important items, steel sash, glass, rock, sand and cement, were purchased from the Palm Springs Builders Supply Co., pioneer material dealers of this community. The Builders Supply operates its own modern

Redlands Bowl Programs Start

Presenting the first Friday evening concert of the Community Music Association in the Redlands Bowl this evening, June 19, will be the Hall Johnson Festival Choir, Hall Johnson, organizer and conductor.

The Festival Negro Chorus is composed of several hundred members from all walks in life. Its basic purpose is to promote the development of Negro music and Negro musicians. Accordingly, the entire proceeds earned by the chorus is applied to the scholarship fund for talented Negro youth in vocal and instrumental music.

Dr. Johnson will direct the chorus in its Redlands program, at 8 o'clock.

Tuesday evening, June 23, the Joyce Neil Dancers will present their annual program in the Bowl, following community singing at 7:30 o'clock. Miss Neil is a talented young dancer who has studied for many years, and who now conducts her own dancing classes, presenting the small pupils in a colorful dance pageant each summer.

The Redlands Bowl concerts, which this week opened the nineteenth consecutive season of the Community Music association, are given without admission charge. A free will offering is taken to help defray expenses of bringing the artists to Redlands.

rock crusher and sand pit at Whitewater.

Fire prevention measures are important now days, as "an ounce of prevention is worth a pound of cure," so specifications for the health center building were for a fireproof asbestos roof. Called in to do this important work was that staunch, faithful workman, Perle Swart, local roofing contractor. Swart is considered one of the finest roofers in the county, famous for his reliable workmanship.

Handsome to look at, built to last, the new health center building is good for many long years of service, thanks to the fine workmanship and quality materials that went into its construction.

NEW \$10,500

(Continued from First Page)

sponsors of the drive for a health center here.

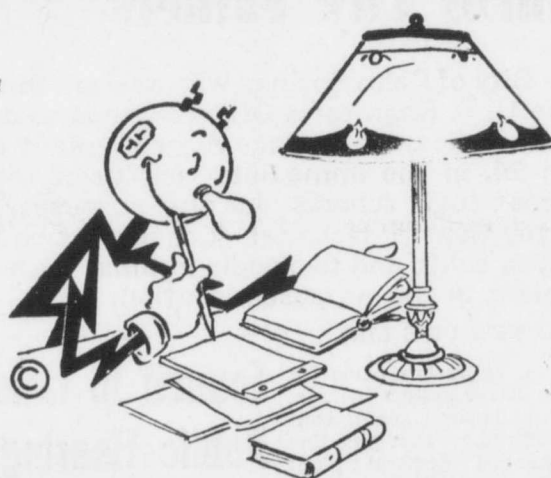

Free Clinics

The facilities of the new health center will include a baby clinic for children under school age, a prenatal clinic, venereal diseases clinic, chest clinic, and classes for mothers. During the hours of the well baby clinic a county doctor will weigh, measure and examine pre-school children and recommend changes in diet and inform the mothers of any needed medical or dental work. Different clinics and classes will be held throughout the week, the hours and days of the week to be announced before the health center opens about Sept. 1.

City Health Nurse Madge Holderman, who is actually paid by the county, will be in charge of the new health center. According to Mrs. Holderman, the health center will endeavor to be a positive force in the community, stressing health and preventive measures more than treatment and cure.

No charge will be made for the services of the clinic.

Mrs. Holderman said the people of the community will be afforded an opportunity to inspect the health center when open house is held after it opens in the fall.

Reddy Kilowatt Says . . .

Congratulations, Palm Springs, on the completion of your splendid new

Spend Week in Las Vegas

No sooner had Mrs. Stella Rooke and her niece, Mary Newell, returned from a trip to Mexico City, when they made up their minds to go to Las Vegas to see what was going on there.

After a week spent with Mrs. Rooke's sister they came back with the same remark made by many other villagers, "that town certainly is busy and is getting more so daily."

Johnny Lamb Home Purchased by Bob Petersons

City Clerk and Mrs. Bob Peterson have recently purchased the former Johnny Lamb house in the Palm Canyon Mesa Tract.

They are moving into their lovely home this week.

TO LOS ANGELES ON BUSINESS

Clarence Simpson made a business trip to Los Angeles Saturday and returned Monday.

Camp Young Soldier Arrested Here on Federal Violation

On a charge he was buying liquor for Indians, Louis V. Ishee, Jr., 22, soldier from Camp Young, was arrested on Palm Canyon Drive Monday by Palm Springs police. The youth gave his home as Mississippi.

Arresting Officer Jim Maynard reported Ishee purchased liquor for Chris Saubel. The soldier was turned over to military authorities.

Musician Fined \$50 On Drunk Charge

Because he was assertedly drunk on the streets of Palm Springs and resisted arrest by struggling with Officers Hall, Wilson and Lux when they loaded him in the police car, Henry Hobbs, 22, has until tomorrow, Saturday, to pay a \$50 fine in the court of Judge Guy Pinney.

Hobbs, who is employed at El Mirador and was formerly a musician at the Cue Club, was picked up last Sunday afternoon on East Andreas Road. When he was brought before Judge Pinney on Monday, he was fined \$50, with the alternatives of paying his fine by June 20, leaving town for six months, or serving 25 days in the Riverside County jail.

Mrs. Neel Back From Trip

Glad to be back in Palm Springs again with her family, Mrs. C. C. Neel Monday of this week concluded a month's vacation spent in Oregon and Northern California.

With Stanley and Dorothy Morgan, she left May 14 for Eagle Point, Oregon, where she remained two weeks visiting with her brother, I. B. Hobbs, and Mrs. Hobbs. From there she went to visit another brother in Santa Cruz and then to San Fernando for a few days to be with her daughter and son-in-law, Mr. and Mrs. Richard Insolo and family.

Rationing Board Tightens Down On Issuing Tires

On Monday of this week Mrs. Zaddie Bunker, chairman of the Palm Springs rationing board, received a teletype instructing the local board to scrutinize very carefully all future requests for tires in order to determine that the petitioners absolutely need and are eligible to purchase tires.

When asked what this means, Mrs. Bunker said the tire situation is much worse and is now very grave, indeed. She said rationing boards will have to tighten down on issuing tires and tubes, and that next month's quota will be much less than that for June.

According to Mrs. Bunker, the local board will hold no more special sugar meetings. However, those who have not yet received rationing books or who want to inquire concerning sugar for canning can appear at one of the rationing board's regular meetings. These meetings are held every Monday and Friday afternoon between 3:00 and 5:00 o'clock in the former offices of the city waste disposal department, 482 N. Palm Canyon Drive.

Employed In Defense Industries

Shortly after graduation, Mr. and Mrs. Steffen Steffensen and son, Preben, left for Los Angeles to make their home.

Both Steffensen and Preben, who was a high school graduate this spring, are employed in defense industries in a coastal city.

Fight Won By the Allies In Palm Springs

By DR. J. R. MACARTNEY
Let two Scotties and Bonnie Doon, a usually peaceful kitten, represent the Allies, and a big black dog the Axis.

This is what happened:
A certain lady, about dusk, takes her Scotties, on leash, for a walk. Trailing behind or scampering ahead, is this choice member of the feline family, named after a romantic river in Scotland.

Passing the Bowling Alley entrance last Sunday night, a huge black cur pounced upon the unsuspecting smaller animals.

Instantly pandemonium was turned loose. Yelping and yowling, there was a grand mix-up, and quickly an eager audience assembled to witness the fight, including many soldiers.

The Scotties were getting much the worst of it and their mistress was unable to untangle either them or herself. Hearing the uproar, from somewhere in the dark, came the cat in long, graceful leaps, and landed squarely on the back of the intruder, and proceeded to dig in.

Terrified, and unable to shake off this dive bomber, the black dog fled in wild and vocal flight, while Miss Puss, like a monkey at the circus, seemed to enjoy the ride.

In the middle of the next block she dismounted, flicked her tail disdainfully at her vanquished opponent, and sauntered back to her still trembling friends.

The cur stopped, looked back ruefully, as if contemplating renewing the combat, seeing which, Bonnie Doon with long, graceful, panther-like leaps was after and upon him again, nor till she was perfectly satisfied that her canine opponent had no more fight in him, did she dismount, and scamper back and rejoin her allies.

It was the event of the day for the visiting soldiers, and one was heard to remark, "Truly, the female of the species is more deadly than the male."

Newest Villager Is Philip Staley, Age 5 Days

A "blessed event" occurred this week in the lives of another Palm Springs couple. This time it was Dr. and Mrs. P. A. Staley. A 6½ pound boy, Philip, was born to the Staleys Monday at the Riverside Community hospital.

Dr. Staley said his wife and the baby are both doing well, and he expects to bring them home in about two weeks. Dr. French of the hospital staff was the attending physician.

The Staleys have another child, a little girl.

Willards Leave For Mammoth Lakes

Having closed their art gallery for the summer, Mr. and Mrs. Stephen Willard and daughter, Bette, this week left for their summer home at Mammoth Lakes.

There the Willards have a similar business and take time out to rest and enjoy the cool weather.

"I Rise to Remark"

By SENATOR JOHN PHILLIPS

When I rose to remark a week ago on the number of alphabetical agencies which are running the war, I must have tickled some funny bones. I have several inquiries, some from people who read the copy before it appeared in print, asking what the alphabetical designations mean.

To begin with, let me correct the number. The list a week ago was based on information from the Los Angeles director of the "Office of Government Reports," which we may expect to be accurate, and which I believed to be up-to-date. Since writing that column I have received a very interesting chart of the war program, which shows "only the offices established as a result of the emergency."

It does include the War Department, with the associated SSS, or Selective Service System; and the Department of the Navy, with the associated Marine Corps and Coast Guard. One would naturally expect these to be associated somehow with the war, even under an administrative program which apparently places as many people in executive positions as it does in the armed forces.

I say this advisably for a count of executive personnel for the month of April shows 2,034,200 people on the Federal payroll, as compared with 1,251,300 for the previous year and about 700,

000 in 1940. This does not include the number of people on the NYA (446,000), nor the WPA (866,700), for the month of April. These give us a total of 3,346,900, to which could be added more than 6,000 legislative employees and almost 3,000 judicial employees, which gives us a grand total Federal Administrative payroll for the month of April of 3,356,100 people. I am merely suggesting that the civilian government army is still probably ahead of the army which carries guns, or drives tanks, or flies planes.

Coming back to my chart, we find also that the Department of the Interior is shown as a war agency, because it has the Office of Petroleum Coordinator for National Defense, and the Office of Solid Fuels Coordination. The Department of Agriculture is shown with an office for Agricultural War Relations.

The President is properly shown as the head of the entire war program and under him is the "executive office of the President."

The following are the ones I mentioned last week, plus a few which may or may not have been born since that time, but are certainly on the chart now before me. I rise to remark that keeping track of the number of agencies involved in any Governmental activity today is somewhat like trying to keep track of the number of rabbits you have in your hutch at any given time. I have raised rabbits and I have also watched Government agencies grow.

The ones I mentioned last week, besides the SSS, were the OEM, Office of Emergency Management, out of which branch the Division of Central Administrative Services, the Division of Information, and a "Counsel." We also have, apparently considered as of equal weight with the OEM, the OGR or Office of Government

Four Lads at Same Missouri Camp

Interesting to note in checking over the addresses of the various soldiers receiving The Desert Sun is the fact that four local lads are stationed at Ft. Leonard Wood in Missouri.

They are Corp. Bud Buckley, Sgt. Joseph Georgetown, Pvt. Donald H. Kellar and Pvt. Stephen Pavel, Jr.

Important Notice!!

Reports, which has in it the coordinator of Government films, and to which we are indebted for the information now being given.

The OPA is the Office of Price Administration with which we are becoming increasingly familiar, and the OCD is the Office of Civilian Defense which seems to be talking a pretty good war. All I know is what I read in the papers!

The DCB is the Defense Communications Board; the DHD was intended to be the Division of Defense Housing but the new

chart shows it as the "National Housing Agency," and under it the Federal Home Loan Bank Administration, the Federal Housing Administration, and the Federal Public Housing Authority.

The list will be continued next week. There are still 26 "emergency agencies" to inventory.

The only freedom worth possessing is that which gives enlargement to a people's energy, intellect, and virtues. — William Ellery Channing.

Open Letter To Property Owners:

DEAR PROPERTY OWNER:

The Palm Springs Real Estate Board is establishing a Central Listing Bureau for the convenience of the property owners of Palm Springs. You may now list your property for rent or for sale with the realtors listed below, who are the only subscribers to the Listing Bureau, by returning the lower half of this letter to P. O. Box 954. Unless specified by you, all of these realtors will receive your listing.

As soon as the listing is distributed you will then deal directly with any of the brokers who contact you, and THIS METHOD OF HANDLING LISTINGS WILL NOT AFFECT ANY ARRANGEMENT, EXCLUSIVE OR OTHERWISE, YOU MAY HAVE WITH YOUR OWN AGENT, who will continue to give you personal service.

You will be interested to know that the Real Estate Board, after a survey, believes that real estate prices, rental and sale, for this season should prevail during the coming season. We believe that the real estate market is healthy and that prices should not be lowered.

Owners quoting prices on year around rentals can arrive at a fair rental price by adding to the normal eight months seasonal rental the four summer months rental at a 50% discount. For example—the seasonal price of \$800.00, or \$100.00 per month for eight months, plus four months at one-half price, or \$50.00 per month, would make a yearly total of \$1,000.00.

Calls for houses coming in from Army personnel stationed at the hospital here range up to \$100.00 per month, and these rentals are being made on a yearly basis. If your property does not fall within this price range, do not hesitate to send in your listing at once, as this is only a small percentage of the calls which we are having and which we anticipate between now and the Fall.

The majority of the offices plan to be open during the most part of the summer. Please feel free to call on the Real Estate Board for any information you may desire.

Very truly yours,

PALM SPRINGS REAL ESTATE BOARD,
By CENTRAL LISTING BUREAU.

HE'S A HERO TOO!

The 'teen age is a tragic age for a boy when his country is at war. In his dreams he joins in high adventure—sweeps the skies in a bomber, presses the trigger of a Garand, turns the tide of battle for America. Then he must wake to the world of cold reality, where he is only a kid, too young to fight.

But now a real call to war service has gone out to the hundreds of thousands of California boys—boys of all ages. The call is from the farms, where worried farmers face an emergency in food production because of the shortage of labor. Lack of help in the sugar beet fields already has caused loss of enough sugar to supply two weeks' rations for 21,000,000 persons! Crop losses are reported from the cotton and peach orchard areas. Losses will grow, and the variety of crops affected increase rapidly, as the summer advances—unless the appeal for help of the farmers of California and the entire nation is met by volunteers.

That call is echoed in the cities, where chambers of commerce and service clubs are organizing for vacations in the fields, and the AWWVS is enlisting women for the lighter farm tasks. The call is echoed from far-away England—so heavily dependent upon America for supplies of food—through the British War Relief, which has launched a war-time harvest recruiting service in California.

The call should bring quick response from eager kids too young to fight. It is a call for sacrifice of all that normal vacation time holds for a boy—lazy afternoons at the beach, baseball, fishing expeditions. It is a call to back-breaking work under the hot summer sun. But it is a call to service as real as the service of MacArthur's men. The farm tractor is a weapon in this war no less potent for final victory than the battle tank. The soldier with the rifle fights on one front—and the boy with the hoe on another, and in his way he is just as much of a hero.

CHINA NEEDS HELP

Time observes that experts are convinced that "China has been a great military opportunity which the U. S. has neglected—an opportunity which is not grasped may not exist much longer."

China's greatest need now is planes, pilots, mechanics and gasoline. And Chinese airfields provide the perfect take-off points for raids on Japan proper. The great industrial city of Nagasaki, for instance, is only three hours by air from Chekiang. Formosa is closer still. All important military objectives in Japan can be reached with relative ease.

The raid on Japan made by Brigadier General Doolittle's squadrons demonstrates that Japan is really vulnerable to air attack. He and his fliers reported that every target was hit according to plan, and that Japanese defenses didn't amount to much. The fact that every American plane reached a friendly field is proof of that.

Japanese radio broadcasts following the raid were obviously designed to buck up civilian morale—which certainly indicates that the Japanese people didn't enjoy the American air visit at all.

Many an American bomber, with crews and spare parts, is likely to go to China in the near future. Tokyo hasn't seen the last of United Nations growing air power.

SENATE REPUDIATES ECONOMY MEASURES

Some time ago the House of Representatives made heavy cuts in a number of important appropriation bills. None of these bills were war measures, and the House was widely praised for its action.

Now the Senate renders the House's action futile. In each case, it has increased the appropriations over the figure determined on in the House. The total increase amounts to the handsome sum of almost \$300,000,000.00.

The action of the Senate in this matter is incomprehensible. It is a prime example of official repudiation of economy pleas.

"BELT TIGHTENING" ALL AROUND

There can be no real check on inflation without maximum economy in government non-war spending. Prodigal government is one of the strongest inflationary influences.

If we are to curb inflation, excess purchasing power must be sharply reduced. And government itself is the greatest creator of excess purchasing power. "Belt tightening" by individuals alone will achieve nothing if it is not accompanied by equally rigorous belt tightening by government, and conservation of every tax dollar.

Much Business Transacted at Council Meeting

The city council meeting Wednesday night was a long, hot, drawn-out affair, during which the city fathers transacted considerable amount of business, important and unimportant, while the perspiration dripped from their brows (not to mention the uncomfortable spectators) due to the warm summer evening.

The council authorized the payment of \$475.39 to The Game-well Co. This was the final installment on the fire alarm system.

The semi-annual payment of \$1210, due July 1st, on the 1000-gallon pumper fire engine, was approved. The fire truck is being purchased on a lease-with-option-to-buy contract from the Mack Truck Company.

Makes Franchise Payment
City Clerk Robert Peterson reported the franchise report and payment for the calendar year 1941 has been received from the California Electric Power Company. This brought \$1551.69 into the city's coffers.

The council accepted the resignation, effective June 15, of Winifred C. Chapman, secretary and stenographer in the city clerk's office for many years. The appointment of Margaret Shill to temporarily replace Mrs. Chapman until June 22, at a salary of 75 cents per hour, was approved.

Appointment of Mary Lou Kingsbury as a full-time stenographer in the city clerk's office, at a salary of \$120 per month, was approved. Miss Kingsbury will go to work on June 22.

The resignation, effective June 9, of Carl McNealy, superintendent of the waste disposal department, was accepted.

To Build on Airport

A communication was read from the U. S. Army Ferrying Command seeking permission to erect some temporary buildings on the new airport and near the east end of McCallum Parkway. After some discussion, the council voted to grant such permission, subject to the terms of the army's lease on the airport, which provides such buildings are to be removed within a certain specified reasonable period of time after the war is over.

Mrs. Lila C. West's resignation as bookkeeper in the city waste disposal department was accepted as of June 9. Mrs. Mae Nerad was appointed to take her place at a salary of \$100 per month. Her employment started June 8.

Army Maintains Airport

It was reported the Army Ferrying Command has been contacted relative to the up-keep of the new airport, and that the army expressed its aim to handle the maintenance of the runways while it has full possession and sole use of the port.

The next meeting of the city council was set for the night of June 30, starting at 7:30, in the city court room, 480 North Palm Canyon Drive.

Proposed Army . .

(Continued from First Page)

ed, that the City Council of the City of Palm Springs, shall and it does hereby direct the attention of the United States Engineer's Office to the fact that the existing site of the sewage disposal plant of the Palm Springs Sanitary District is the least objectionable for such purpose in the Palm Springs area and also has been carefully chosen from an engineering standpoint, and does request that any further additions to the sanitary and sewage facilities in Palm Springs contemplating additional disposal plant facilities be placed on the site of the present disposal plant, where there is ample space for said purposes on the forty-acre parcel of the Sanitary District, as well as ample acreage immediately adjoining in the southeast corner of Section 18, T. 4 S., R. 5 E., S. B. B. & M., which is now under lease to the United States Army from the City of Palm Springs.

"Be It Further Resolved that in the interest of the public health, safety and welfare the City Council shall and it does hereby request that the United States Engineer's Office refrain from placing any sewage disposal plant on said Section 24, and

"Be It Further Resolved, that the Mayor and City Manager of this City be and they are hereby authorized and directed to confer with the United States Engineer's Office and its representatives regarding the plan and design of any further sewer system and facilities which are to be constructed, for the purpose of avoiding needless injury of substantial and continuing nature to the Palm Springs schools and residential districts, and for the purpose of making arrangements whereby the said Engineer's Office shall take advantage of the existing facilities."

The site being considered by the U. S. Engineers for the army disposal plant is on the south side of Ramon Road between the high school and the new airport.

JOHN BRINTON ANNOUNCES HE WILL SEEK OFFICE OF SUPERVISOR FOR FOURTH DISTRICT; THREE IN RACE

The announcement Wednesday by John Brinton of Banning that he intends to file his nomination papers, Saturday, made certain of at least three candidates in the August primaries for the office of supervisor of the fourth district. The other two candidates are Robert E. Dillon of Cherry Valley, incumbent, and Harry H. Moore of Indio.

Mr. Brinton was on a trip through Palm Springs, Coachella, Indio and Blythe yesterday. His nomination papers were being circulated at that time by a group of supporters and will be filed before noon, Saturday.

In his fifty-word statement attached to his declaration of candidacy, Mr. Brinton says of his business experience that it "includes, among others, the following lines: Ranching, growing beets, alfalfa, beans, grain, hay and fruit; cattle raising, feeding and marketing; automobile and garage business; gasoline and oil distributing; mining, forestry service, building roads, trails, etc.; at present a rancher and business property owner and heavy taxpayer."

Mr. Brinton was born February 27, 1899, in Pennsylvania, and came to this state when he was 15 years old.

His first job after he came to Banning was in the forestry service. He later became a mechanic in a garage. In 1923 he established the Banning Auto Camp, which he operated until 1927, when he leased it to become the local agent for Pontiac, Oakland and Buick cars. Three years later he sold the agency and purchased a ranch, which he operated until he again entered the forestry service in 1935. In June, 1940, he became distributor for General Petroleum. Later he sold the agency and is now engaged in ranching and looking after his various business properties. He owns two ranches—one in Millard Canyon and the other northwest of Banning. He also owns business property in Beaumont and Banning.

Brinton has served on the Banning planning commission the past two years, city street superintendent for two years, and is at present head of the Banning Taxpayers' League. He was married in 1922 and has two sons, Chad and Gene.

100 Men Work . .

(Continued from First Page)

100 men now being employed by the J. & B. firm.

Will Start Soon
It is very apparent an effort is being made to employ Palm Springs people as much as possible at the Army General Hospital. The army is keeping the crew of Mexican gardeners formerly employed by the hotel, and a considerable number of locals have been engaged for stenographic and secretarial work. Now the contractors are hiring more local people.

Hospital officials said this week the big development at the olive grove will get underway in about two weeks. It will start with the seven big permanent warehouses, and from then on contracts will be let almost weekly for other buildings.

Gardener Fined \$50 For Smashing Into Parked Car

Rudy Salazar, Palm Springs Mexican gardener, arrested on the night of June 4 on the charge of hitting an unattended car without reporting the accident to the owner or the police, was fined \$50 when he appeared before Judge Guy Pinney on June 16.

The accident occurred in the wee hours of the morning when Salazar is reported to have run into a car parked on Ramon Road and owned by Gordon Feeking, popular local restaurant owner. The cars of both Salazar and Feeking were damaged. Salazar left his car near the scene of the accident and went home to bed. Later, police called for him and took him to the station, where he was given a traffic citation ordering him to appear before Judge Pinney on June 16th.

JOHN BRINTON

Council to Hold . .

(Continued from First Page)

zoning of certain frontage on the south side of Ramon Road near the Field Club from residential to restricted business be denied. However, it was revealed the matter has been referred to the "land use committee" of the planning commission for further consideration of a possible change in zone for the entire Ramon Road area in question and not for just the lots applied for by Williams and Mrs. McManus.

Munholland Turned Down

It was suggested that the application of John Munholland for rezoning of a lot at the corner of North Indian Avenue and Paseo El Mirador, next to the Army General Hospital, from residential to restricted business, be turned down by the city council.

In the matter of closing several streets in the vicinity of the new Army General Hospital, the planning commission made the following recommendations to the city council: It approved the closing of Via Miraleste north from Via Eytel to Tachevah Drive and also the closing of a 20-foot unnamed street in the John Mel tract. It asked that council deny the request for the closing of Tachevah Drive between Avenida de Los Palos Verdes and Via Miraleste. If Tachevah Drive must be closed, however, to make way for the Army General Hospital development, the city planners suggested the council recommend to the U. S. Engineer's office that careful consideration be given to the possible construction of an overpass or underpass to keep Tachevah a through-street, in view of the importance of the street.

Combine Hearings
Before the city council takes final action on these matters, it will have to hold public hearings on each. At the council meeting Wednesday night it was decided to combine all these requests at a hearing to be held sometime during the next month or so, the exact date to be announced later.

As the planning commission still has another hearing scheduled on the petition of D. B. Carlin for a change of zone on lots 16 and 17, Palm Springs Village tract, which he seeks to have placed in R13 (bungalow courts), the city council hearings will be held over at least until the council receives the planners' recommendation on this last matter. Then the city council's hearing on the Carlin petition can be held right along with all the other hearings in the offing.

Phillips Files For Nomination on Both Major Parties

Senator John Phillips will seek nomination on both the Republican and Democratic tickets for candidate for congressman from the new twenty-second district. Monday he filed formal candidacy papers for both major party nominations.

Two years ago the Senator carried both the Republican and Democratic nominations for reelection to the state senate.

In a formal statement of candidacy on the nomination papers, Phillips declared:

"It is important that someone should represent this new district who is familiar with California's peculiar problems, particularly our irrigation methods and our agriculture. Ten years in the state legislature have prepared me to understand and present these, as well as broader problems."

The new congressional district consists of Riverside, Orange and Imperial counties.

The only freedom worth possessing is that which gives enlargement to a people's energy, intellect, and virtues. — William Ellery Channing.

Family Dinner at Lazy Acres

Mrs. Nellie N. Coffman, charming owner and manager of the Desert Inn, has gone to Banning to spend the summer at her home, Lazy Acres, on Lombardy Lane.

Wednesday she entertained with a family dinner. Her guests included her brother, O. O. Orr of San Francisco; her brother-in-law and sister, Mr. and Mrs. H. W. Broughton of Los Angeles; and her sister-in-law, Mrs. Edna Coffman of Santa Monica. The occasion was her brother's birthday.

Mrs. Coffman drove her car Tuesday for the first time since she broke her arm seven weeks ago.

SOFT OR HARD BALL GAMES STAGED ON FIELD CLUB DIAMOND NEARLY EVERY NIGHT OF THE WEEK

Proving even more popular than in past summers, the nightball games at the Field Club have been drawing large crowds lately with nine interesting games being played during the past week. Two of these were handball games.

Starting with the double header on Thursday night, June 11, here are the results of games for the past seven nights. On that night in a league game, the State Guard ran all over the boys from the Ferrying Command, taking the Army lads into camp by the one-sided score of 21 to 4. In the second game the same evening, Company A, 68th Quartermasters' Corps, was whitewashed 7-0 by the 91st Reconnaissance.

Then on Friday night of last week the Lions Club eked out a slim 10-8 victory over the City Playground kids. In the other game that night the Rinkydinks defeated the 44th Material from March Field by the close score of 4 to 3.

Start Hard Ball

Last Sunday saw the first hard ball game at the Field Club. In this regulation baseball affair the 55th Quartermaster's Corps lambasted Company C, 57th Quartermasters Corps, by the neat score of 11 to 5.

Another hard ball game was played at the Field Club on Tuesday of this week. In this battle the 105th Coast Artillery earned a 14 to 6 decision at the expense of the 64th Medical Corps. In a second session Tuesday the Bombers defeated the Ferrying Command 13 to 7 in a league game.

Wednesday saw a really close battle between two evenly-matched army teams. In this interesting affair Company A, 68th Quartermasters Corps, won by a close margin of one point over Company C, 55th Quartermasters Corps. The final score was 5-4.

Wednesday was another double header night. In the second affair the Bombers defeated the 64th Quartermasters Corps easily by the score of 14 to 6.

Games Almost Nightly

Games will be played practically every night during the coming week. The list of games that will start at 8:30 p. m. is as follows:

Thursday, June 18 — League game—State Guard vs. Rinkydinks.

Friday, June 19—Ferrying Command vs. 203rd Quartermasters Corps.

Tuesday, June 23 — League game—Ferrying Command vs. Rinkydinks.

Wednesday, June 24—Bombers vs. Company C 55th Quartermasters Corps.

Thursday, June 25th—League game—State Guard vs. Bombers.

Friday, June 26—44th Material March Field vs. State Guard.

Several 6:30 Games

There will be 6:30 p. m. games on Tuesday, Wednesday, Thursday and Friday between Army teams from Desert Center.

LYKKENS BACK FROM INTERESTING VACATION TRIP

Arriving back in the village from a 10-day vacation yesterday, Thursday, and looking very rested, too, were Mr. and Mrs. Carl G. Lykken.

For the short space of time they were gone, the local couple did a lot of traveling. Leaving Palm Springs June 9, they went first to Los Angeles for a day or so. Then they started out for San Francisco via the coast highway, stopping enroute to visit Camp Roberts and at Del Monte for Mr. Lykken to make up his Rotary Club attendance.

After San Francisco, their next destination was Lake Tahoe, where they stayed at the Brockway Hotel. That is where Dr. and Mrs. Jack Hill spend the summer. The Lykkens enjoyed visiting with the Hills, who took them on a motor trip to Reno, Carson City and other points of interest in Nevada. The mountains around Lake Tahoe were covered with snow, according to the Lykkens.

Heading south toward home again, the villagers took the route through Placerville and the interesting historic old mining camps of Sonora county, famous in the days of '49. From the area of the deserted mining camps, they entered Yosemite over the beautiful Big Oak Flat road.

Yosemite National Park, according to the Lykkens, is enjoying one of the biggest seasons in its history. As soon as they arrived in the valley, they began looking for a place to spend the night. They tried every hotel in the park, but everything was filled to capacity. Finally, the manager of the Ahwahnee came to the rescue, and put them up for the night in the office of the famous hotel.

The Lykkens said they met many Palm Springs people in Yosemite who were working in the hotels and other establishments. They recognized many of the waitresses as persons who worked in the village during the winter season.

Returning to Palm Springs by way of the San Joaquin Valley, the Lykkens stopped off at Pasadena before making the last short hop home.

Villagers Asked . .

(Continued from First Page)
more on weekends — and the number is increasing. Athletic activities are under the direction of the City Recreation Superintendent.

Sanctioned by City
The War Recreation Council, acting officially as a special department of the City to regulate the service men's recreation problem, plans to finance these activities and Palm Springs' National USO quota through a single fund, known as the "War Chest." It believes that now, while the USO's national campaign for funds for service men is being made, is a particularly appropriate time to call the public's attention to the needs of Palm Springs.

Checks may be made payable to the City of Palm Springs and marked "War Chest Fund", or marked specially for any of the activities being financed through the War Recreation Council. Unless specially requested to the contrary, part of every dollar contributed will go to both local and national USO, and will entitle the donor to receive a USO contributor's button, which will be forwarded by the War Recreation Council.

The appeal is made to the man on the street, the forgotten man, and the man in the mansion, and is, unquestionably, one in which everybody will want to do his part. Headquarters for the local War Chest campaign is in the office of the Chamber of Commerce, 310 N. Palm Canyon Dr.

better roads in this district," Mr. Moore said.

"This could be done by planning a system of roads for each community on a budget basis, giving them their share each year with a full tax dollar value."

Indio Councilman To Oppose Dillon

Harry H. Moore, former mayor of Indio and present city councilman in the desert city, announced last week that he intended to

HARRY H. MOORE

become a candidate for the office of supervisor of the fourth district opposing Robert E. Dillon, incumbent, of Cherry Valley.

Mr. Moore moved to Riverside county in 1926 from Illinois and was appointed in 1935 to fill a vacancy caused by the resignation of one of the Indio councilmen. After completing this term, he was elected councilman and chosen mayor by the council for two full terms.

Before moving to Indio he had served for four years as city clerk and mayor of Pulaski, Ill.

"I will stand on my own feet in all matters that come before the Board of Supervisors; vote and work for what I believe is right, and vote 'no' on what I think is wrong. Protecting at all times the people affected. I believe we should and could have more and

June Marine Corps Recruiting Program Is Announced

The needs of the United States Marine Corps were outlined in an announcement of the June recruiting program today by Major James P. Schwerin, officer-in-charge of Marine recruiting in Southern California.

For general duties the Marine Corps is enlisting men between the ages of 17 and 23. Men for general service may enlist for four years or for the duration. Training, duties and opportunities for promotion are the same in either case.

The age bracket for Limited Reserve service, which is garrison duty at Naval establishments within the continental United States, is now 33 to 50 inclusive. Those enlisting from Southern California will be stationed in the naval yards and Marine garrisons of the 11th Naval District.

Former Marines or Army men are especially desired for Limited Reserve, and those having World War service will be reappointed to the highest non-commissioned rank held by them. Rental allowance for dependents will be given all men in this classification in addition to regular base pay. Physical requirements have been lowered for this service. Limited replacements release younger men for combat duty.

The Marine Corps has also increased its quota for ex-Marines with rifle-range instruction experience. These men are subject to appointments as platoon sergeants, according to their qualifications.

Radio technicians urgently needed by the Corps include high school graduates between 17 and 35 who possess an amateur radio operator's license (A or B), or

Interim Committee Issues Book With Report of Findings

The report of the California Senate Interim Committee on Economic Planning has been issued in book form. It is a report on wartime problems of agriculture, compiled by Senators Robert W. Kenney and John Phillips from information acquired at 24 public hearings held by the committee in cities throughout the length and breadth of the state.

In their introductory remarks the two members of the committee state, "Victories may be won on distant fighting fronts this year or next, but battles now being waged from Imperial Valley to Humboldt county in California will be lost unless reinforcements of men and machines are quickly made available."

The report takes up the farm labor shortage problem, constructive measures to improve it, the famine of farm machinery, laws and regulations affecting war-time agriculture. The last part is devoted to excerpts from testimony taken at the various hearings.

commercial radio telegraph or radio telephone operator's license. Bonafide evidence of at least three months' experience in actual repair or service of radio equipment will also be accepted for appointment as staff sergeant and sent directly to radio school in San Diego.

Forest Supervisor Lists Streams Open for Fishing

Due to war conditions, the majority of National Forest areas in Riverside and San Bernardino counties will be closed to the public, according to word received by the chamber of commerce this week from DeWitt Nelson, forest supervisor at San Bernardino. Only those areas highly developed for summer cabins and recreation will be open this summer.

Naturally, this will mean a reduction in the number of waters open to fishing. Realizing this information is of considerable interest to anglers, Nelson has announced the following fishing places in the National Forest are still open to the public:

Listed as fishing places in the San Jacinto district are Hemet Lake, Strawberry creek upstream from Idyllwild, north fork San Jacinto upstream from Banning-Idyllwild road, Willow creek and Tahquitz creek.

In the Big Bear district the following places are listed: Fish creek for approximately two miles, Santa Ana from Weeha Club to Big Meadows, south fork Santa Ana river, Lost creek, Forsee creek, Barton creek, Big Bear Lake and Jenks Lake.

Green Valley Lake, Lake Arrowhead, Lake Gregory and east fork of the Little Mojave are the only places where sportsmen can use their rods and reels.

Harris Posey Family Back From Mexico

Fresh from an enjoyable trip to Mexico City, Mr. and Mrs. Harris Posey and family arrived in Palm Springs shortly after midnight last Saturday night enroute to Los Angeles, where they will reside this summer. They spent Saturday night at John Chaffey's Casa Palmeras.

Posey is manager of the local branch of Bullock's and is the new president of the Palm Springs Chamber of Commerce. He went to work Tuesday for the summer in Bullocks at Los Angeles.

BACK FROM VACATION

Back at her desk in the chamber of commerce office, Monday morning after an enjoyable two-weeks vacation, was efficient secretary Bertha Carter. Like the proverbial postman who goes for a long walk on Sunday, Mrs. Carter spent her vacation (of all places) on the desert near Blythe.

Lucile Pavny Plans Business Trip to Washington

Important business may take Mrs. M. M. Pavny to Washington, D. C., within the next two or three weeks. She may even leave next week, she said. Mrs. Pavny said she could not divulge the nature of the business, but added it is official. She will only spend about a week in the nation's capital, and hopes to make the trip by plane.

Joe Henderson Has Birthday

Celebrating her husband's birthday, Mrs. Joe Henderson entertained twenty friends with a buffet supper Monday evening. Throughout the evening the guests enjoyed ping pong and badminton at their home at Ramon Trailer Park.

Villagers Give Money and Gifts To Local USO

The USO Hospitality House has been the happy recipient of gifts from citizens anxious to contribute to the war effort and express their gratitude for the job the soldiers are doing for us.

Joe Butler, manager of the Safeway Store, on behalf of his firm, presented a check for \$20; Stephen Willard, famous for his paintings of the desert, gave \$10; Mrs. Arthur McGraw of Detroit, a winter resident of Deep Well Ranch for the past eight years, contributed \$25. Natalie Towle helped solve the problem of the dearth of tennis racquets by donating one. However, USO needs more racquets and tennis balls.

More Contribute

Mr. and Mrs. Ted Reed, well-known residents of Palm Springs, had two signs painted and erected; one in front of the Hospitality House and one at the corner of Tamarisk Road and Palm Canyon Drive. Philip Boyd has pledged ten crates of oranges a week, and if one could see, or better still, be one of the boys entering from the desert on a hot day and enjoying a refreshing ice-cold glass of orange juice presented by the willing hands of the hostess, one would realize what a boon the gift is.

Gives Piano

Another generous act was that of eleven-year-old Marion Gray, daughter of Mr. and Mrs. Earl Gray of the Royal Palms Hotel. This eager young lady has made it possible for Hospitality House to own a fine upright Lester piano. It won't be long before some of the musicians and concert pianists, who find themselves in the rank and file of the army, will be gratefully blessing the donor as they fill USO with sounds of harmony.

Plan Barbquees

Other opportunities are offered those who wish to serve. Melba Bennett, whose active imagination is ever devising means for the employment of waiting talents, has scheduled Saturday night barbecues and swims, which are hosted by men who want to help meet the problem of entertaining the boys camped on the desert. The past Saturday night H. A. Greene, a summer resident at Ingleside Inn, hosted the party at USO Hospitality House where he entertained about 50 boys with a swim and barbecue. Miss Muriel Fulton, Mrs. Natalie Towle and Mrs. Elizabeth Merry, the hostesses of the evening, proved able assistants, and as always, the time for dispersal came all too soon.

The boys are looking forward to their party this coming Saturday night and to the pleasure of making the acquaintance of their host. It is probable that some potential hosts who are absent from Palm Springs will entertain the boys by proxy.

Recreation Facilities

Pool, tennis, card games and music, as well as swimming, afford diversion and respite for enlisted men from El Mirador, the Ferry Command and the Desert Training Center. It is very hot out there, and anyone wishing to transport boys in the afternoons and evenings from the center of town to Hospitality House, should call Mrs. Bennett at the USO and she is arranging to have USO cards printed to be placed on the cars of those volunteering for the service.

Local Youth Visits Village On First Leave

Arriving in the village Friday of last week for a few days' visit with his former employers, Mr. and Mrs. E. E. Hoppe, was Private Ballis Varnel, now stationed at Camp Roberts, California.

On Saturday night Mr. and Mrs. Hoppe, Mr. and Mrs. Argis Palmer and Private Ballis motored up to the Green Shack for dinner and cocktails.

This was the local youth's first leave, as he has only been in the army some three or four months. He returned to camp on Sunday.

Father's Illness Calls W. Z. Allen To Oklahoma

Because of the serious illness of his father, W. Z. Allen was called to Shawnee, Oklahoma, Friday evening. He will be back in Palm Springs sometime next month to resume his post as property manager of the Palm Springs Corporation.

Mrs. Allen is staying here while he is in Oklahoma.

TEMPORARY SECRETARY AT CITY OFFICES

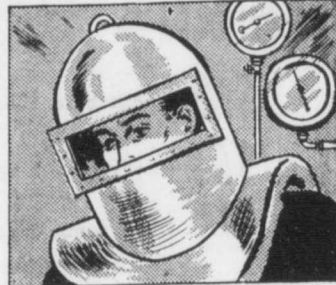

Busy all this week as a temporary secretary in the city clerk's office was Mrs. Margaret Shill. Her employment was necessary due to the recent resignation of Mrs. Winifred Chapman.

Soldiers of Production

America's "soldiers of production," men and women working in the plants of American industry, have their uniforms, too. Some uniforms worn by G-E workers on vital production jobs are shown below.

1. Not a gas mask, but a special nose mask to guard his breathing, is worn by this spray painter at his job in one of the General Electric plants.

2. Like a man from Mars, the "cold room" research man is a strange sight as he tests airplane instruments for high-altitude performance in a G-E laboratory.

3. Frankenstein? No, just another G-E worker. His job is sandblasting big turbine castings for Uncle Sam's ships at one of the General Electric plants.

4. The helmet he wears is to protect him from light! The rays from a welder's arc could cause blindness if he did not wear this strange headgear.

General Electric believes that its first duty as a good citizen is to be a good soldier.

General Electric Company, Schenectady, N. Y.

GENERAL ELECTRIC

What You Buy With WAR BONDS

Ships of the Destroyer type comprise the bulk of our fighting ships in the American Navy. Their average displacement is about 1800 tons, and they are fast, powerful, and hard hitting. They have been particularly effective in convoy duty and gave a good account of themselves in the Coral Sea engagement. They cost approximately \$3,600,000 each.

Every Navy shipyard is turning out Destroyers in record time. They are essential for our two-ocean Navy. Purchase of more and more War Bonds will assure all-out production of these vital units for the Navy. Buy every pay day. If everybody invests at least ten percent of his income in War Bonds we can do the job. U. S. Treasury Department

State Guard Regimental Hdqts. Moved to Riverside

Headquarters of the 5th Regiment, California State Guard, have been moved from Redlands to Camp Rubidoux, Riverside. The site of the camp is the old Riverside County Fair Grounds at Fairmount Park.

Locals wishing to enlist in either the active guard, stationed at Camp Rubidoux, or the inactive guard for home guard service here in town, can do so by calling at Company "M" headquarters in the Palm Springs fire station. For information see Corp. Goff at the desk.

Max Balengers Here for Weekend

As jolly and robust as when he lived here, Max Balenger, with Mrs. Balenger, spent the weekend visiting friends in Palm Springs.

He was connected with the local police department several years ago and now is working at the coast in defense industries.

Billy Wrights In Mexico City

Usually spending their summers traveling and making no exception this year, Mr. and Mrs. Billy Wright and daughter left two weeks ago for Mexico. Yesterday Charley Mathews received word that they are in Mexico City.

There they will be for another week and then motor to Burnt Prairie, Illinois, to visit Billy's brother. They expect to be back in Palm Springs in another month.

Altha Wilson In Albuquerque

Employed at Albuquerque in an Indian curio shop similar to her father's Indianoya here, Altha Wilson will be at the New Mexico town all summer.

Her son went to the Indian country with her.

Kumpes Now At Lake Arrowhead

Prominent figure in civic projects this past season, Karl Kump and Mrs. Kumpes this week left for Lake Arrowhead.

They plan to return in the fall as they have done in many seasons past.

NERAD IN LAS VEGAS

Now that he has closed his furniture store for the summer, J. G. Nerad has gone to Las Vegas to join the numerous other villagers there.

VACATIONING IN ST. LOUIS

Back to their former home in St. Louis, Missouri, last week went winter resident, Grace Lewis Miller.

Pay Telephone Bills before the 30th and receive discount.

MRS. ELISABETH F. NORWOOD
Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

CHRISTIAN SCIENCE CHURCHES
"Is the Universe, Including Man, Evolved by Atomic Force?" This question is the Lesson-Sermon subject in all churches of Christ, Scientist, on Sunday. The Golden Text chosen from Proverbs, reads: "The Lord by wisdom hath founded the earth; by understanding hath he established the heavens."

The experience of Elisha and the impoverished widow as told in Second Kings is related in a Bible passage. The creditor had come to take the widow's two sons to be bondsmen. "Elisha said unto her, What shall I do for thee? tell me, what hast thou in the house? And she said, Thine handmaid hath not any thing in the house, save a pot of oil. Then he said, Go, borrow three vessels abroad of all thy neighbours. . . . And when thou art come in, thou shalt shut the door upon thee and upon thy sons, and shalt pour out into all those vessels. . . . And it came to pass, when the vessels were full, that she said unto her son, Bring me yet a vessel. And he said unto her, There is none. Then she came and told the man of God. And he said, Go, sell the oil, and pay thy debt, and live thou and thy children of the rest."

Mary Baker Eddy says in "Science and Health with Key to the Scriptures": "The miracle introduces no disorder, but unfolds the primal order, establishing the Science of God's unchangeable law." "Spirit duly feeds and clothes every object, as it appears in the line of spiritual creation, thus tenderly expressing the fatherhood and motherhood of God."

Geraldine Hayes To Wed Saturday

That eventful day is swiftly approaching for Miss Geraldine Hayes, for tomorrow, June 20, she will become the bride of Lawrence Sholz of Chico.

Miss Hayes will be remembered by children and adults alike as the pretty, dark-haired school teacher at the Frances Stevens school. She had been teaching here for the past five years. Complete details will be given in the next issue of this newspaper.

STEEL WORKERS BOOST WAR BOND SALES BY USE OF POSTERS

At the Bethlehem Steel Corporation plant, Bethlehem, Pa.

Workers at the vast steel plant of Bethlehem Steel Corporation at Bethlehem, Pa., whose purchases of war bonds are being encouraged by the means of giant posters, at the present time are 96.3 per cent buyers of war bonds by means of payroll deductions. It was announced yesterday by Eugene G. Grace, president of the company.

Purchases of war bonds by employees at all plants of the corporation have virtually doubled in the last three weeks, bringing the number of buyers to 137,000 out

of 215,000 persons on the payrolls. On April 1, when the company launched a drive for 100 per cent participation, only 70,000 workers were purchasing bonds through regular payroll deductions.

Fourteen plants of the company have scores of 80 per cent or better at present, led by the Leedsdale Fabricating Works, with a perfect record, and the Ranking Fabricating Works with a 99 per cent participation.

Of the major plants Johnstown comes first with 98.3 per cent, followed by Bethlehem with 96.3 per cent. The

quarries are 94.1 per cent signed up; the Lebanon plant, 92.8 per cent; the Lackawanna plant, 87.3 per cent, and the Steelton plant, 86.6 per cent.

In the New York area the shipyard at Fifty-sixth St., Brooklyn, is 86.5 per cent represented and the Staten Island shipyard, 84.2 per cent. Other good scores are 83.1 per cent at the Preston Mines, 82.7 per cent at the Williamsport plant, 81.1 per cent at the Sparrows Point, Md., steel plant and 80 per cent at the Sparrows Point

quarries.

quarries are 94.1 per cent signed up; the Lebanon plant, 92.8 per cent; the Lackawanna plant, 87.3 per cent, and the Steelton plant, 86.6 per cent.

Cathedral City

By W. R. HILLERY

In the Pacific Northwest where the pioneers learned to speak Chinook, I remember a common word, "cultus", and it had a meaning that corresponded to "no good", which might mean lazy or several other meanings. We have been canvassed lately by a pathetic group of cultus people who are certainly working up Adolf's alley. To insure their right to work for disunity of this country we have a villain group in our community who are doing their useful work of making a living and in addition are guarding the skies against surprise from the enemy.

It is far from easy to maintain a constant vigil on the desert and especially during the summer. The crew of volunteers who are on the job every minute of the twenty-four hours and seven days a week are now Claude and Edna Cobb, Mrs. Laura Carey, C. M. Geffert, Frank Harrington, Miss Georgia and Miss Norma Rich, Lawrence Baker, Chester and Marie Ide, Christina Lillian, Robert Higgins, Oline Saness, J. R. Burns, Lee Moran, Jo Higgins, James Jordan, Robert Hillery, Marguerite Hillery, Wilber and Alphamay Larrison, Cecil Sturtevant, George Washington, George Zouganilles, H. A. Snyder, Dr. E. H. Brandt, William Carey, William Chance, Robert DaVall, Fred and Mrs. Springer, Arch Mills, Eileen Carey, Lillian Jacobsen, and Ruth Metz.

Because the list is long I cannot at this time give the names of the volunteers who have served for long periods since Pearl Harbor and are now away from the desert. Many of them are in the hundred hour class, a list of whom the Observation Corps recently asked for. Several recruits are on the list for relief of the regular shifts but more are needed. If any one doubts the necessity of maintaining this post as well as every other one established at the request of the Army Fighter Command they should have listened to the Army Hour on June seventh.

To provide some needed comforts for the observation post it has been suggested that all who wish should bring their scrap rubber to the post and deposit it on the pile and when there is a load Slim Larrison will load it on his truck and take it into Palm Springs and the proceeds of the sale will be used by the post. Any scrap rubber!

There are several from this area who are now employed at the Army Base Hospital in Palm Springs. I wanted to list them but will wait until I get a roster of them. So many have gone into defense work at other places that it is some relief to find that some remaining family men especially are getting work where they can live at home.

War-war-war. Whether we believe in it or not, there is only one answer for us, and that is to win. We have tough babies to lick, but the mobilization goes on and I have a hunch that this time next year, if it isn't over, the end will be in sight. Questionnaires are being filled out by a huge number of men and on the 30th of this month the fifth registration will take place. This time it will be completed in one day, and I would ask that the same board members as before serve again at the Town Hall.

Just sat here trying to think of some news that might interest

you. For instance, Mrs. Jo Higgins' Cathedral Date Shop and Lunch Counter is still open and it is a great convenience for all who are staying on. H. E. Peterson of the Desert Cove Ranch should be revelling in fresh milk as a calf was added to the livestock family the other day. What I mean is the little beggar is not a contributor, but a share-cropper.

Claude and Edna Cobb are at Thomas Mountain for a week or so where they are adding another room with conveniences to their mountain cabin. The Cathedral City colony may not be so large up there this summer, however, at the annual meeting of the Thomas Mountain Mutual Water Association last week the same board elected last year was retained and at the board election W. R. Hillery was elected president; C. S. Cobb, vice-president; with Mr. Pratt of Coachella, treasurer, and Blackburn of the same town, secretary, and the fifth member, Mrs. Maude Decker, now resident at Thomas Mountain.

Of interest to many Cathedralites was the marriage last Saturday at Santa Ana of Miss Sarah Margaret Harvey to Cadet William B. Kinser.

Miss Harvey is the only daughter of Dr. and Mrs. E. M. Harvey, who have maintained a desert home in Cathedral City for a number of years and to which Miss Harvey often came.

Pomona was the home of both parties, and each graduated from Pomona high school in 1936. Margaret, we all join in wishing you two young people all the happiness in the world.

Mrs. Hathaway at Manitou Springs

Now settled at Manitou Springs in Colorado for the summer months is Mrs. Emma Hathaway. She left the village several weeks ago and stopped off several places enroute to Colorado.

Former owner of Los Arboles Apartments, Mrs. Hathaway last year sold her property and made her home with Dr. and Mrs. P. A. Staley during last season.

Bosworths Open Idyllwild Store

Since activities have started at Idyllwild the Bosworths this week closed their El Paseo Grocery here to open their store in the mountain resort.

Both Mr. and Mrs. Charles Bosworth and Clarence and Juanita are at Idyllwild, and John Briggs enlisted in the Army some weeks ago.

Harry Plymire Reports for Duty In Air Corps Soon

Another Palm Springs business man to answer the call for service in the armed forces is Harry L. Plymire, owner and manager of the Mira Monte Hotel, who will report at the replacement center in Santa Ana in the very near future. Plymire had R.O.T.C. training while in college and is entering the air corps with the rank of first lieutenant. It is understood he will be in the quartermasters corps.

Mrs. Plymire and their two sons, Darrell and Gary, are occupying a cottage at the Craig Motel in Banning. They plan to remain there for a month. Mr. Plymire is with them until he reports for duty.

The Plymires have purchased a five-acre orchard in Banning.

DAUGHTER IS BORN TO THE DONALD SCRIVENS

A daughter was born yesterday, June 19, at the Osteopathic hospital in Riverside, to Mr. and Mrs. Donald B. Scriven of 445 Andreas Road. Mr. Scriven is a local carpenter.

Articles Released Regarding Gas Warfare

By DR. WARD L. MOULD
Medical Gas Officer, U. S. Office of Civilian Defense

(This is the first of a series of six articles about war gases, their characteristics, and the measures the civilian can take to protect himself against gas injury.)

1.—THE POSSIBILITY OF GAS ATTACK

The first step in the citizen's defense against war gases is to obtain a clear understanding of what gas can and cannot do. This series is designed in part to dispel some of the current misinformation about war gases.

Despite the increasing range and capacity of aircraft, a gas attack on a large enough scale to cause injury to a substantial portion of a large city is not regarded in authoritative quarters as feasible. Even in limited areas gas, to be effective, must be used in great quantities.

Gas might be used in an attack upon a city either alone or in conjunction with other weapons. The better citizens are trained and equipped to deal with gas the less likely it is that gas will have any appreciable effect.

Quick-acting types of gases may be used against a community to produce immediate casualties, throw the population into a state of panic and disrupt their Protective Services. Slow-acting types, which may remain effective for several days in a liquid form, may be used to "contaminate" important factories, railroads, highways, etc., to prevent their use. Such gases could be sprayed or sprinkled from airplanes in the form of a fine rain or they might be contained in bombs dropped from planes. Citizens will find it of value to know something of the varieties of gas that might be used.

(NEXT WEEK—THE TYPES OF GASES)

War Insurance Available Here Starting June 20

Alvin Weingarten, prominent insurance agent, with offices in the Plaza, this week announced arrangements had been worked out with the fire insurance industry to act as Fiduciary Agents for the War Damage Corporation in writing policies of protection against enemy attack.

"It will be necessary for everyone who wants protection against enemy attacks to make his application as soon as the necessary blanks are available, because the blanket protection now in force will expire, by law, June 30," Mr. Weingarten said.

The program has been worked out in cooperation with representatives of the insurance industry, and a great majority of those writing fire insurance will participate. Anyone wanting the protection can contact Mr. Weingarten, whose office will be open all summer.

The necessary manual of rates, rules and regulations, and application blanks are being printed and will be distributed throughout the United States on or about June 20.

The policies will be issued for a 12-month period to cover physical loss of real and personal property which may result from enemy attack or action of our own forces in resisting enemy attack. Blackout, sabotage, capture, seizure, pillage, looting, use and occupancy, rent, rental value, or other indirect loss or consequential damage will not be covered.

Effort has been made to provide reasonable protection at as low a cost to the insured as possible. Recognizing that losses occasioned by war are a national problem, Congress specified in its legislation that rates for this protection should be geographically uniform, that is, the rates to be charged will be the same in the middle of the United States as they are on or near the coast.

he is in favor of a public swimming pool for Palm Springs.

As a means of getting around the lease angle, it was suggested the city could possibly purchase a small piece of property at the Field Club on which the F.S.A. would be willing to build the pool.

This entire matter of the lease on the Field Club and the suggested application to the F.S.A. for a swimming pool for use of service men stationed in this area was put over for consideration at the next meeting of the city council.

Following favorable action on the "War Chest" drive for Palm Springs, Chaffey announced yesterday the campaign for funds will be started immediately.

Ferry Command Men Marry Local Girls

Biggest news from the Ferrying Command camp this week was announcement several of the men have married Palm Springs girls. The recent marriages were as follows: Sgt. James N. Williams to Miss Laura Mae Riley; Corp. John Horn to Miss Peggy Fornall; and Pvt. 1st Class Clifford R. Timberlake to Miss Sylvia Rubinstein.

A new arrival this week was First Lieut. Meyer M. Mandel, medical detachment, who will be stationed at the Ferrying Command camp. The lieutenant hails from Long Beach.

Sad to tell, the "Bombers", Palm Springs high school team, defeated the Ferrying Command, 13 to 9, in a league softball game the other night.

Mrs. Melba Bennett of Deep Well Guest Ranch took four of the enlisted men to Idyllwild this morning, Friday, for a day's outing. Swimming and the cool mountain air were enjoyed. The men she took to the mountains are guards who have the night shift and who consequently haven't had the opportunity to enjoy some of the other recreational facilities provided for service men here.

Lieut. Earl Wiggins, engineering officer at the Ferrying Command camp, was in the East this week. He left the Palm Springs airport on Tuesday to deliver an army bomber to the East Coast, and is expected back today (Friday) or tomorrow.

Sells Property in Santa Rosa Tract

John G. Purcell has purchased from Mrs. Jennie Gray, residential property in the Vista Santa Rosa tract. The property is described as Lot 53 and is on the west side of Calle Santa Rosa, the third lot north of Camino Parocela.
